Change the world one trip at a time. In this illuminating collection of stories and lessons from the road, acclaimed travel writer Rick Steves shares a powerful message that resonates now more than ever. With the world facing divisive and often frightening events, from Trump, Brexit, and Erdogan, to climate change, nativism, and populism, there's never been a more important time to travel. Rick believes the risks of travel are widely exaggerated, and that fear is for people who don't get out much. After years of living out of a suitcase, he still marvels at how different cultures find different truths to be self-evident. By sharing his experiences from Europe, Central America, Asia, and the Middle East, Rick shows how we can learn more about our own country by viewing it from afar. With gripping

stories from Rick's decades of exploration, this fully revised edition of *Travel as a Political Act* is an antidote to the current climate of xenophobia. When we travel thoughtfully, we bring back the most beautiful souvenir of all: a broader perspective on the world that we all call home. All royalties from the sale of *Travel as a Political Act* are donated to support the work of Bread for the World, a non-partisan organization working to end hunger at home and abroad. *Silly Sticker Stories™* Halloween Tales is packed with spooky stories that get silly when readers get involved! Kids will have a blast solving the Hidden Pictures® puzzles, then placing the corresponding stickers in the blank spaces of the stories in whatever order they choose, creating a unique silly story from a multitude of possible combinations. This collection

contains friendly witches, zany monsters, costumed trick-or-treaters, glowing jack o' lanterns, tricks and treats—and of course, stickers! Solve the Hidden Pictures® puzzles and fill in the silly stories with stickers!

Numerical puzzles, logic puzzles, word games, lateral thinking puzzles, riddles...this book has it all. Most of them are extremely short and can be solved mentally in just a minute or two. When and where writing is required, a small slip of paper should be more than adequate. The purpose of these puzzles is to entertain. The correct answer is not always obvious and this is one of the amusing aspects of the book. The reader will notice that the puzzles are often misleading or involve humor in the answer. Therefore, use your imagination, be alert, and have an open mind when trying to solve the puzzles.

Logical thinking: challenges that must be solved with logic, making inferences until finding the solution or, sometimes, eliminating the other alternatives. Mathematical knowledge: it will be necessary to know mathematical (and sometimes physical) principles to solve certain puzzles. Paper and pencil: challenges in which drawing schemes is necessary to reach the solution of certain mental games (although the most daring will continue to solve them in the head only). Adults Sudoku With Solutions, 4 Puzzles Per Page The Goal Can You Do It? Brain Teaser Puzzles The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New

York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum. The word "astronaut" comes from the Greek words meaning "star sailor," and that is exactly what students will become in Astronaut Academy. Then someone slyly answers: "Just a couple of days." But exactly what will happen in just a couple of days? Readers don't have long to wait before Professor Blip Korterly is arrested and his molecular biologist friend Dr. Flake Fountain is drafted into a shadow-government research project to develop the ultimate weapon: a biological agent that will render its targets unable to understand symbols, thus disrupting humanity's ability to communicate.
