From a two-time winner of the Philip K. Dick award, and one of the founding fathers of cyberpunk comes a novel about a very modern nightmare: the most destructive computer virus ever has been traced to your machine. Computer programmer Jerzy Rugby spends his days blissfully hacking away in cyberspace — aiding the GoMotion Corporation in its noble quest to create intelligent robots. Then an electronic ant gets into the machinery ... then more ants then millions and millions of the nasty viral pests appear out of nowhere to wreak havoc throughout the Net. And suddenly Jerzy Rugby is Public Enemy Number One, wanted for sabotage, computer crime, and treason — a patsy who must now get to the bottom of the virtual insectile plague. Lost Legend of the Tude Shifters

In the Footsteps of Ansel Adams and the Great Masters

Reproduction of the original: Hugh Crichton's Romance by C.R. Coleridge Early in the 21st century, after the Great Recession, poet and young mother Maggie Roche is harassed by a lovely woman, Sriyanie, and a famous neuroscientist, David Elfield. She doesn't know it yet, but she is about to become history's first time traveler. When agents from the far future attempt to kill her, in baffled fury she slingshots herself into the 7th millennium. Instantly she's on the run from the Ull Lords and their virtual reality devotees. These superbeings are cyborged humans constructed to live forever, with the ambition to rule the universe. Maggie is having none of this.

Encountering an earlier version of Sriyanie, her fated future role in the formation of the multiverse falls upon her shoulder like a thunderous lightningbolt. A Being at the end of time she calls the Something wages endless war with its foes, the Ull Lords. Torn from her beloved child and her own time, Maggie must choose whether to accept this alienating path into an alternative cosmic history fit for a poet and a free woman. The Journey Begins The story begins as a professor called Wallahoo and his assistant Sheldon are looking for the cure of world hunger. Little do they know that they're about to change the world? With the help of the professor Maniti's father's old friend, Professor Jones and an Indian called Cloud Walker, they will start a journey to unknown galaxies and great worlds beyond the imagination of anything today. Each book in this series is sold as an individual edition (book), "The Journey Begins, The New World, Lessons From The Aura, and Hence Forth the Beginning" is the first 4 books in the "Lost Legend Series."

By using social-psychological literature and

sociological theory to examine infancy through later adulthood, this text challenges students to probe the larger social context when viewing the complexities of human development. Long and Holle examine and emphasize the importance of organizations, communities, society, and global influences in assessing human behavior in the social environment. To facilitate the integration of theory and content, the authors use different theoretical orientations to organize the chapters. These are followed by an analysis of developmental issues, a case example, a section in which macro-level influences are highlighted, a reintegration of theory section, and suggested activities.
