The A-904 and A-727, debuting in 1960 and 1962, respectively, are

3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar

circles, they have become synonymous with strength, durability, and

performance. In fact, 43 years after its first application, A-904s were

still found in the Jeep lineup! TorqueFlites are known for their

dependability, but many have endured a tremendous amount of abuse

over 50-plus years when hooked up to V-8 Mopar powerplants.

There is little doubt that some of these automatics could be prone to

failure, or at least need a thorough rebuild. Tom Hand shares his

decades of experience rebuilding TorqueFlite transmissions with

chapters dedicated to troubleshooting, disassembly and reassembly,

performance modifications, post-installation procedures, and the

most thorough source guide offered in print, ever. The author walks

you through the TorqueFlite rebuild with color photos showcasing

step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}
