1 is subset of defined that every element of will

lie in set. 2 For any set, defined that the element
will lie in or in . 3. For the condition defined
that element will lie in or in. 4 If for any element
is of , it must be the element of .But is element of
is not necessary that it is the element of and set
is common to both.

Chapter 1.1 Solutions | Topics In Algebra 2nd Edition ...

These solutions are meant to facilitate deeper
understanding of the book, Topics in Algebra, second
edition, written by I.N. Herstein. We have tried to
stick with the notations developed in the book as
far as possible. But some notations are extremely
ambiguous, so to avoid confusion, we resorted to
alternate commonly used notations.
